PROFESSIONAL SUMMARY

Software Developer with 1+ year of experience in designing and developing full-stack web applications using React.js, JavaScript, Node.js, Express.js, and MongoDB. Hands-on experience in MERN stack development, RESTful API development and integration, responsive UI development, JWT authentication, and role-based access control. Experienced in integrating Razorpay payment gateway (test mode), Brevo SMTP for transactional email notifications, and MongoDB for data management. Familiar with Git, debugging, API testing, and Agile development methodologies.

PROFESSIONAL EXPERIENCE

Full Stack Developer **June 2025 – June 2026**

MyInception Tech, Chennai

- Developed full-stack web applications using React.js, Node.js, and Express.js.
- Designed and integrated RESTful APIs for seamless frontend and backend communication.
- Built responsive and reusable UI components using HTML5, CSS3, and JavaScript.
- Worked on database integration, application functionality, debugging, and code maintenance.
- Collaborated with team members during development activities and Agile sprint delivery.

PROJECTS

EyeKart – MERN Stack E-commerce Application

Technologies: *React.js, Node.js, Express.js, MongoDB, Razorpay, Brevo SMTP*

- Developed a full-stack e-commerce application using the MERN stack (MongoDB, Express.js, React.js, and Node.js).
- Implemented product browsing, category-based filtering, shopping cart, and checkout functionality.
- Developed RESTful APIs using Node.js and Express.js for product and order management.
- Integrated Razorpay payment gateway in test mode with payment order creation and signature verification.
- Integrated Brevo SMTP using Nodemailer to send automated order confirmation emails.
- Implemented Cash on Delivery (COD) and online payment workflows with MongoDB order storage.

Wrightpath – E-learning Platform

Technologies: *React.js, Material UI, Node.js,Express.js, Google Cloud Platform (GCP)*

- Developed a full-stack e-learning application using React.js and Node.js.
- Designed and integrated RESTful APIs for frontend and backend communication.
- Built responsive user interface components using React.js, HTML5, and CSS3.
- Used Google Cloud Platform (GCP) for deployment and data management.

Visitor Pass Management System

Technologies: *React.js, Node.js, Express.js, MongoDB, JWT*

- Developed a full-stack MERN application with role-based access for Admin, Receptionist, and Employee.
- Implemented visitor registration, approval, check-in/check-out, and visitor history management.
- Developed backend APIs with Express.js middleware and controllers for business logic and data validation.
- Implemented JWT authentication, bcrypt password hashing, and role-based authorization to secure application endpoints.

TECHNICAL SKILLS

- HTML5/ CSS
- JavaScript
- React.js
- Material UI
- Node.js
- Express.js
- MongoDB
- REST API Integration
- GitHub/ Git
- UI/UX Design
- Digital marketing and SEO

EDUCATION

B.E. – Computer Science and Engineering **June 2021 – May 2025**

Loyola Institute of Technology and Science *CGPA: 8.1*

CERTIFICATIONS

Web Development – AK Infopark (3-Month Course)

UI/UX Design – eMax Education (5-Month Course)

SOFT SKILLS

Teamwork, Communication, Problem-Solving, Time Management, Adaptability, Creativity

LANGUAGES

Tamil, English
